

## Safety Data Sheet

### FC – TRIM

Version: 1.2

Date: 20/06/2023

According to Regulation (EU) 2015/830

#### SECTION 1: Identification of the substance/mixture and of the company/undertaking

##### 1.1. Product identifier

Product form : Mixture  
Trade name : FC – TRIM

##### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Main use category : Consumer use, Professional use  
Use of the product : Protective Coating  
Restrictions on use : No additional information available

##### 1.3. Details of the supplier of the safety data sheet

FUSIOCOAT  
La Station, Parc Scientifique Georges Besse,  
442 rue Georges Besse, 30000 NIMES, FRANCE  
technical@fusiocoat.com; www.fusiocoat.com  
Telephone: +33768758064

##### 1.4. Emergency telephone number

Available 24 hr/day, 7 days/week: +33768758064

#### SECTION 2: Hazards identification

##### 2.1. Classification of the substance or mixture

Classification according to Regulation (EC) No. 1272/2008 [CLP]

May cause allergic skin irritation, Category 1, H317

Causes eye Irritation, Category 2, H320

May cause respiratory irritation, Category 3, H335

For the full text of the H-Statements mentioned in this Section, see Section 16.

##### 2.2. Label elements

Labeling according to Regulation (EC) No. 1272/2008 [CLP]

GHS07

Signal word (CLP) : Warning

Hazard statements (CLP): H317 May cause allergic skin irritation.  
H320 Causes eye irritation.

	H335	May cause respiratory irritation.
Precautionary statements (CLP):	P261	Avoid breathing vapors, spray, mist.
	P280	Wear protective clothing, protective gloves, eye protection, face protection.
	P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

### 2.3. Other hazards

The product does not meet the PBT and vPvB classification criteria.

## SECTION 3: Composition/information on ingredients

### 3.1. Substances

Not applicable.

### 3.2. Mixtures

Name	Product identifier	%
Water	-	≤10
propan-2-ol	(CAS-No.) 67-63-0	≤ 20
3-(Trimethoxysilyl)propyl methacrylate	(CAS-No.) 2530-85-0	≤ 25
Hybrid Silane	(CAS-No.) Proprietary	≤ 45

Full text of H-statements: see section 16.

## SECTION 4: First aid measures

### 4.1. Description of first aid measures

First-aid measures general	: Consult a physician. Show this safety data sheet to the Doctor in attendance.
First-aid measures after skin contact	: Wash off with soap and plenty of water. Consult a physician.
First-aid measures after inhalation	: Get medical advice/attention if you feel unwell. Remove person to fresh air and keep comfortable for breathing. Give oxygen or artificial respiration, if necessary.
First-aid measures after eye contact	: Immediately rinse with water for a prolonged period as a precaution.
First-aid measures after ingestion	: Rinse mouth out with water. Do NOT induce vomiting. Get medical advice/attention if you feel unwell.

### 4.2. Most important symptoms and effects, both acute and delayed

The most important known symptoms are described in the labeling (see section 2.2 and/or section 11).

### 4.3. Indication of any immediate medical attention and special treatment needed

No data available.

## SECTION 5: Firefighting measures

### 5.1. Extinguishing media

Suitable extinguishing media : Water spray. Dry powder. Alcohol-resistant foam. Carbon dioxide.

### 5.2. Special hazards arising from the substance or mixture

- Fire hazard : In case of fire and/or explosion do not breathe fumes. Burning produces stinking and toxic fumes. Heating will cause a rise in pressure with a risk of bursting.
- Hazardous decomposition products in case of fire : Toxic fumes may be released. Carbon oxides.

### 5.3. Special hazards arising from the substances or mixture

Carbone oxides, silicon oxides.

### 5.4. Advice for firefighters

- Firefighting instructions : Move containers from fire area if it can be done without personal risk. Exercise caution when fighting any chemical fire. Fight fire with normal precautions from a reasonable distance. Use water spray for cooling exposed containers.
- Protection during firefighting : Do not attempt to take action without suitable protective equipment. Self-contained breathing apparatus. Wear fire/ flame resistant/retardant clothing.

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

- General measures : Avoid contact with skin and eyes. Prevent from entering sewers, basements and work pits, or any place where its accumulation can be dangerous.

#### 6.1.1. For non-emergency personnel

- Protective equipment : Wear recommended personal protective equipment.

#### 6.1.2. For emergency responders

- Protective equipment : Wear recommended personal protective equipment. Do not attempt to take action without suitable protective equipment.
- Emergency procedures : Evacuate unnecessary personnel. Ventilate area.

### 6.2. Environmental precautions

Avoid release to the environment. Prevent leakage or spillage if safe to do so. Do not the product enter drains.

### 6.3. Methods and materials for containment and cleaning up

- For containment : Stop leak without risks if possible. Do not touch or walk on the spilled product. Contain any spills with dikes or absorbents to prevent further spillage.
- Methods for cleaning up : Take up liquid spill into an absorbent material. Move containers from spill area. Prevent entry to sewers and public waters. Small quantities of liquid spill: take up in non-combustible absorbent material and shovel into container for disposal. For large spills, confine the spill in a dike and charge it with wet sand or earth for subsequent safe disposal. Absorb remaining liquid with sand or inert absorbent and remove to safe place. Clean contaminated surfaces with an excess of water.
- Other information : Dispose of via an authorized person/ licensed waste disposal contractor or by other suitable waste treatment techniques. Dispose of materials or solid residues at an authorized site.

### 6.4. Reference to other sections

For further information refer to section 13.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

- Precautions for safe handling : Ensure good ventilation of the workstation. Wear personal protective equipment. Avoid contact with skin and eyes. Avoid breathing fumes, vapors, mist. Avoid release to the environment. Keep in original containers.
- Hygiene measures : Do not eat, drink or smoke when using this product. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Always wash hands after handling the product. Wash contaminated clothing before reuse.

## 7.2. Conditions for safe storage, including any incompatibilities

Storage conditions : Store in a well-ventilated place. Keep cool. Store in a dry place. Store in accordance with local, regional, national or international regulations. Keep away from food, drink and animal feeding stuffs. Store locked up. Keep container tightly closed. Moisture sensitive.

## 7.3. Specific end use(s)

No additional information available.

# SECTION 8: Exposure controls/personal protection

## 8.1. Control parameters

No additional information available.

## 8.2. Exposure controls

### Appropriate engineering controls:

Provide local exhaust or general room ventilation. Handle in accordance with good industrial hygiene and safety procedures. Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure.

### Personal protective equipment:

Wear recommended personal protective equipment. Personal protective equipment should be chosen according to the CEN standards and in discussion with the supplier of the protective equipment.

#### Hand protection:

Chemical resistant gloves (according to European standard EN 374 or equivalent). Breakthrough time : refer to the recommendations of the supplier. Nitrile rubber gloves, natural rubber gloves. Since the product consists of several substances, the durability of the glove material cannot be estimated and needs to be tested before use

#### Eye protection:

Eye/face protection Safety glasses with side-shields conforming to EN166 Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

#### Skin and body protection:

Wear suitable protective clothing. Skin protection appropriate to the conditions of use should be provided.

#### Respiratory protection:

In case of insufficient ventilation, wear suitable respiratory equipment. Where excessive vapor, mist, or dust may result, use approved respiratory protection equipment.

### Environmental exposure controls:

Avoid release to the environment. Technical onsite conditions and measures to reduce or limit discharges, air emissions and releases to soil.

# SECTION 9: Physical and chemical properties

## 9.1. Information on basic physical and chemical properties

Physical state : Liquid  
Color : Yellow to orange.  
Odor : Characteristic.  
Odor threshold : No data available  
pH : 5.5 - 6.0  
Relative evaporation rate (butylacetate=1) : No data available  
Melting point : Not applicable  
Freezing point : No data available  
Boiling point : No data available

Flash point	: 98 °C
Auto-ignition temperature	: > 200 °C
Decomposition temperature	: No data available
Flammability (solid, gas)	: Not applicable
Vapor pressure	: No data available
Relative vapor density at 20 °C	: No data available
Relative density at 20 °C	: 0.99 – 1.02
Solubility	: No data available
Partition coefficient n-octanol/water (Log Pow)	: No data available
Viscosity, kinematic	: No data available
Viscosity, dynamic	: 20 – 50 mPa·s
Explosive properties	: Oxidizing
Oxidising properties	: No data available
Explosive limits	: Not applicable

## 9.2. Other information

No additional information available

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

The product is non-reactive under recommended conditions of use, storage and transport.

### 10.2. Chemical stability

Stable under recommended storage conditions.

### 10.3. Possibility of hazardous reactions

No dangerous reactions are known under normal conditions of use.

### 10.4. Conditions to avoid

None under recommended storage and handling conditions (see section 7).

### 10.5. Incompatible materials

Strong bases. Strong acids. Oxidizing agent.

### 10.6. Hazardous decomposition products

Under recommended conditions of storage and use, hazardous decomposition products should not be produced.  
Hazardous decomposition products formed under fire conditions, Carbon oxides, silicon oxides.

## SECTION 11: Toxicological information

### 11.1. Information on toxicological effects

Acute toxicity (oral)	: Not classified (Based on available data, the classification criteria are not met)
Acute toxicity (dermal)	: Not classified (Based on available data, the classification criteria are not met)
Acute toxicity (inhalation)	: Not classified (Based on available data, the classification criteria are not met)
Skin corrosion/irritation	: Causes skin irritation
Serious eye damage/irritation	: Causes eye irritation
Respiratory or skin sensitization	: Not classified (Based on available data, the classification criteria are not met)
Germ cell mutagenicity	: Not classified (Based on available data, the classification criteria are not met)
Carcinogenicity	: Not classified (Based on available data, the classification criteria are not met)
Reproductive toxicity	: Not classified (Based on available data, the classification criteria are not met)

STOT-single exposure	: Not classified (Based on available data, the classification criteria are not met)
STOT-repeated exposure	: Not classified (Based on available data, the classification criteria are not met)_
Aspiration hazard	: Not classified (Based on available data, the classification criteria are not met)
Other information	: No experimental study on the product is available. The information given is based on our knowledge of the components and the classification of the product is determined by calculation.

## SECTION 12: Ecological information

### 12.1. Toxicity

Hazardous to the aquatic environment, short-term (acute) : Not classified

Hazardous to the aquatic environment, long-term (chronic) : Not classified

Not rapidly degradable

Additional information : No experimental study on the product is available. The information given is based on our knowledge of the components and the classification of the product is determined by calculation

### 12.2. Persistence and degradability

Biodegradability in water: no data available.

### 12.3. Bioaccumulative potential

No additional information available

### 12.4. Mobility in soil

No additional information available

### 12.5. Results of PBT and vPvB assessment

The product does not meet the PBT and vPvB classification criteria

### 12.6 . Other adverse effects

Other adverse effects : No other effects known.

## SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

Waste treatment methods : Dispose of contents/containers in accordance with licensed collector's sorting instructions. Disposal must be carried out using appropriate EWC code.

Product/Packaging disposal recommendations : This combustible material may be burned in a chemical incinerator equipped with an afterburner and scrubber. Dispose o in a safe manner in accordance with local/national

Ecology - waste materials : Avoid release to the environment.

European List of Waste (LoW) code : For disposal within the EC, the appropriate code according to the European Waste Catalogue (EWC) should be used.

## SECTION 14: Transport information

### 14.1 UN number

ADR/RID: - IMDG: - IATA: -

### 14.2 UN proper shipping name

ADR/RID: Not dangerous goods

IMDG: Not dangerous goods

IATA: Not dangerous goods

### 14.3 Transport hazard class(es)

ADR/RID: - IMDG: - IATA: -

#### 14.4 Packaging group

ADR/RID: -

IMDG: -

IATA: -

#### 14.5 Environmental hazards

ADR/RID: no

IMDG Marine pollutant: no

IATA: no

#### 14.6 Special precautions for user

No data available

### SECTION 15: Regulatory information

#### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

##### 15.1.1. EU-Regulations

Contains no REACH substances with Annex XVII restrictions

Contains no substance on the REACH candidate list

Contains no REACH Annex XIV substances

Contains no substance subject to Regulation (EU) No 649/2012 of the European Parliament and of the Council of 4 July 2012 concerning the export and import of hazardous chemicals.

Contains no substance subject to Regulation (EU) No 2019/1021 of the European Parliament and of the Council of 20 June 2019 on persistent organic pollutants

##### 15.1.2. National regulations

No additional information available

#### 15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

### SECTION 16: Other information

#### Full text of H-Statements referred to under sections 2 and 3.

H317 May cause allergic skin irritation.

H320 Causes eye irritation.

H335 May cause respiratory irritation.

---

Data sources : ECHA (European Chemicals Agency). REGULATION (EC) No 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 16 December 2008 on classification, labeling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006. Supplier's safety documents.

Training advice : Training staff on good practice.

The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. The information in this document is based on the present state of our knowledge and is applicable to the product with regard to appropriate safety precautions. It does not represent any guarantee of the properties of the product.
